START ACCELERATOR KICKOFF

01 - 03 March | Zurich

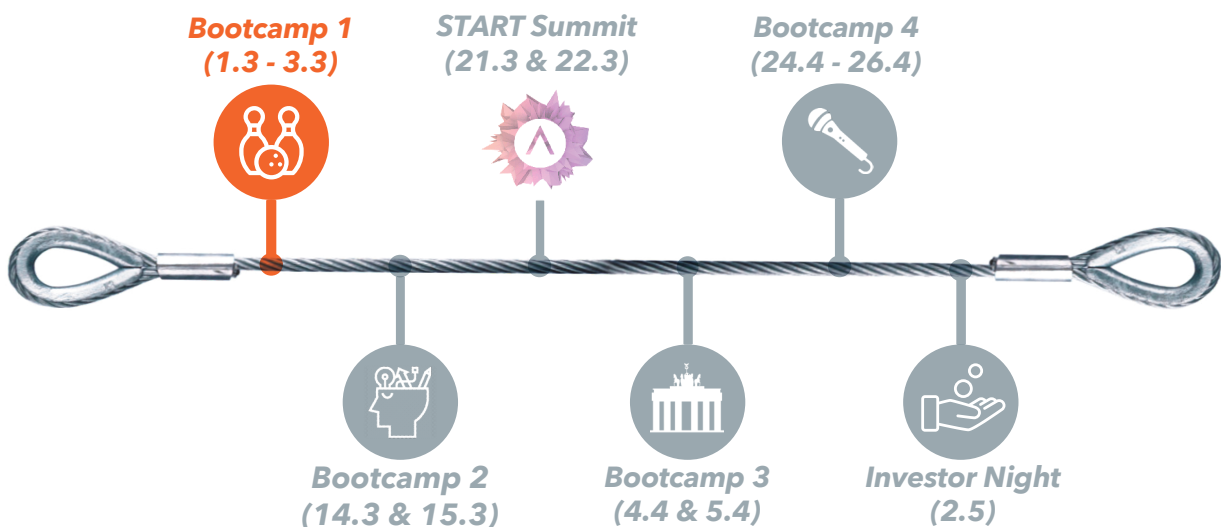

AIM:

Validate your business idea, learn about storytelling and build a community among participants.

DESCRIPTION:

The kickoff is the first point of contact for the participating startups and marks the start of the Accelerator programme. Kicking off with a successive bowling evening with pitching-, socializing- and presentation-opportunities inbetween rounds. The Accelerator is not simply events and workshops, but a community based on the shared interest for entrepreneurship and innovation. Following the fun and vibrant

kickoff, two intense workshopdays await the startups. The second day will be packed with a workshop about the business model canvas taught by a professional coach. This allows the founders to validate their idea. Since every story needs to be told, we wrap up the first Bootcamp with the first of many sessions with our storytelling-coach.
