START ACCELERATOR INVESTOR NIGHT

2nd of May 2019 | Zurich

AIM:

Meet-up for investors and VCs, pitching competition for cash prize and networking.

DESCRIPTION:

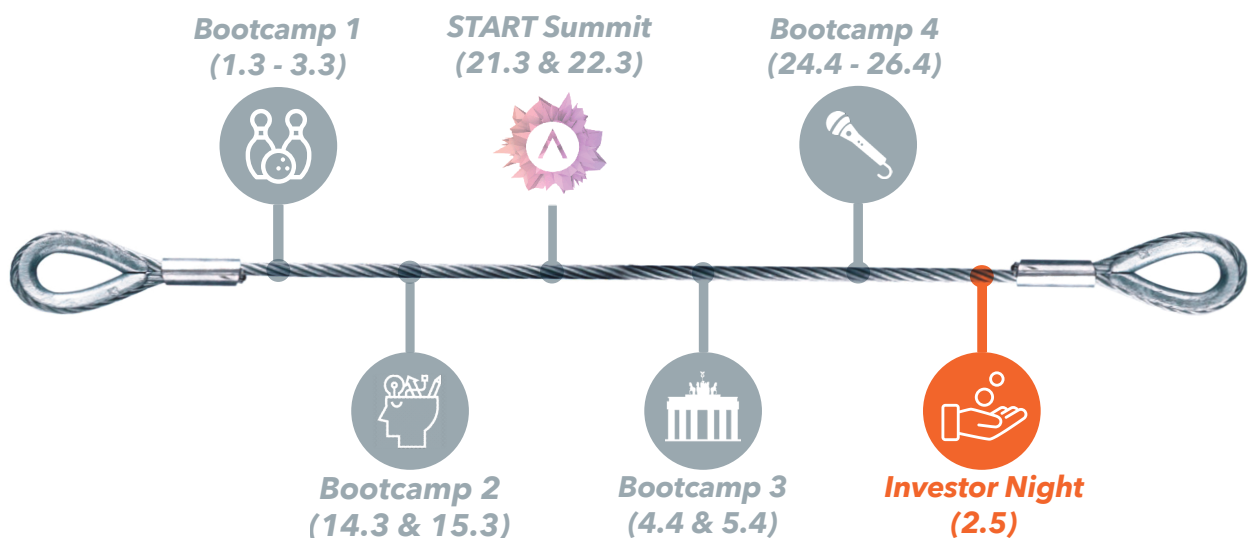

The Investor Night marks the grand finale of our ten-week START Accelerator and of the START Global year 2018/19.

During this unique evening event, VCs and fellow Investors meet up with our ten Accelerator-startups, two startups from our subprogram START Odyssey, three startups from the START Lausanne programme Concours, their mentors, and other students. In a pitching competition, each startup will get a few minutes stage time followed by short Q&A from our Jury.

The Investor Night thereby gives the invited investors the one-time opportunity to be among the first to discover these new startups.

Following the pitches, a jury votes on the START Accelerator winner together with the audience. The winning startup is rewarded with a cash prize.

Finally, the event closes with an open apéro, which serves as a networking opportunity with fellow investors.
